

THE ROSWELL DAILY RECORD.

VOLUME 1.

ROSWELL, NEW MEXICO. ~~WEDNESDAY~~ TUESDAY EVENING, SEPTEMBER 7 1903

NUMBER 14

Honest Labor Is The Foundation On Which All Good Government Rests.

LABOR DAY.

**Roswell Celebrates The Day
With Music, Speeches,
Parade and Many
Amusements.**

A BIG CROWD IS IN TOWN

**Hon. Jerry Simpson And Capt.
Smith Are the Orators of
The Day.**

Labor Day was celebrated today in grand style, and was a complete success. There were throngs of people on the streets and Roswell looked like a city of 25,000 people. Barrels of lemonade were served free on the court house lawn and the band played better than ever. The Kodak fiends were out in large numbers. The parade was very large and the floats were well designed.

All of the unions were represented in the parade except the Federation and the clerks. The band headed the parade, followed by the unions in the following order: Carpenters, Stone Cutters, Barbers and Bar Tenders. Then followed the floats of the Carpenters Union, Painters Union, Stone Cutters and Brick Masons Union, Plasterers Union, China Hall, Peeler's New York Store, Pecos Valley Drug Co., Pecos Valley Lumber Co., Reuter's shoe shop, Davis Lumber Co., Western Grocery Company, Charles Whiteman and Bro., Star Meat Market, Davis Lumber Co., Artesia Racket Store, Davis Lumber Co., Rothenberg and Schloss, John Schrock Lumber Co., Home Bakery, Morrison Restaurant, Duff and Davison, The New Idea Mott, Walker Bros., Coulter and Rea, Roswell Bottling Works, Roswell Furniture Co., Ed Wheeler, E. H. Williams and Co., Salvation Army, Oriental Cafe, and Roswell Bicycle shop.

It would be a hard task to pick out the best float, but it seems that the choice is between the Carpenters Union and the Roswell Bicycle shop. The carpenters' float was a large one and workmen were busily employed in same. The bicycle float consisted of two bicycles and platform between the two riders. There was a large canopy over same and a beautiful little girl was the queen on the throne.

Just as we go to press the Hon. Jerry Simpson and Captain Smith of the Salvation Army have concluded their speeches in the court house yard to a large audience. Both speakers were happily received. They were introduced by A. W. McWhirt, marshal of the day.

C. M. Berryhill is billed to make the balloon ascension at 4:30 o'clock. There has been excellent order the entire day, and practically no drunk eness. There has been only one arrest and that was early in the morning.

D. D. & W. Throwing Dirt.

Hon Nathan Jaffa, president of the Town Board, is in receipt of the following communication:

Haskell, Texas,
Sept. 2, 1903.

Mayor,
Roswell, N. M.
Dear sir:—

We notice the Denton, Decatur and Western railway of Texas has put fifty men and teams to work. We hope this is true and we congratulate you in being so successful in getting it. They have made us a proposition that we can meet. This will be a fine line when completed. What railroad company do you think is behind this road? Please give us all the information in regard to the road you can. Thanking you in advance the information, we are, Very respectfully,
THOMASON & THOMASON.

Public School Notice.

Owing to the delay in printing the new catalogue, we publish below the High School curriculum. The five courses heretofore offered have been consolidated and put into one course plus the electives. This is being done in nearly every high school of note. The course adopted is the same as that published by the National committee of ten on high school curricula, with a few exceptions to adapt it to the needs of this community. This course is so built as to give the student ample training to fit him for any standard college in the United States.

The schools are provided with the best teachers, and with the co-operation of the patrons we can have the best school in the territory.

The patrons are invited to visit the schools as often as they will. We should be glad to have them talk freely with us in regard to their children.

In the new catalogue will occur a few changes in method, arrangement of course of study, etc. These are not new and untried, but are such as have been proven by the best schools in the country.

Tomorrow morning all the pupils will assemble at their respective rooms and buildings at 8:45 for classification. All those who hold promotion cards will be promoted without examination. Let all those who expect to attend come in at the opening.

Below is the High School curriculum:

—4 periods per week.

Physics—4 periods per week.
History—3 periods per week.
Modern Languages and Greek (elective)—3 periods per week.

Fourth or Senior Year.

Latin—2 periods per week.
Latin Prose Composition (half year)—1 period per week.
English (first half year)—3 periods per week.

English Composition—1 period per week.
Solid Geometry (half year), Plane Trigonometry (half year)—3 periods per week.

History—3 periods per week.
Chemistry—3 periods per week.
Elementary Psychology (last half year)—2 periods per week.

Modern Languages and Greek (elective)—3 periods per week.
J. F. STILWELL, Supt.

We Never Guess.

When we say we are selling goods cheapest, we are not guessing. We know it. When we say "You never saw goods so low before," we don't surmise. We are positive. When we say that beginning on Monday morning we will kick the foundation from under values and send prices tumbling after a fashion you have never dreamed of, take us at our word and come prepared.

PORTER-EWELL MER. CO.

Colorado Impressions.

Mr. J. M. Miller and family recently returned from an extended trip to Colorado, and Mr. Miller handed in the following article on the impressions of his trip:

There is a wonderful increase of travel on our western railroads. It seems to have almost doubled in the last year. It is not uncommon for lady passengers to have to ride in the smoking cars, and on some trunk lines or on excursion trains it is impossible for many ladies to find a seat. When we went over the loop to Silver Plume, there were three coaches each all running in the same train loads of passengers of six time. The three train loads of people were side tracked at Georgetown and two more full train loads of people pulled in, making five trains of six coaches each, and every coach filled to its utmost capacity.

In coming from Las Vegas to Trinidad on the through California train, which is run in two sections of thirteen coaches each, we could not get a seat except on the Pullman sleepers. If a man should ask me which of the Colorado mountain roads affords the most attractive scenery, I would be like the man who was a hard drinker when some one asked him which of the different brands of whisky did he regard as the best, and he answered, "the last I drank." I am the same way—the last I saw. I never saw anything more exciting in my life than when coming down over the loop between Silver Plume and Georgetown on the road, which winds like a great serpent down the canyon, and at one place forms a loop and crosses itself by the means of a high bridge across the canyon. We could look forward sometimes right by us and away below us we could see the train that was ahead of us, and at the same time we could look back and see the other train behind and above us. After our train passed over the bridge and made the circle and came under the bridge, the train that was behind us came on the bridge with six coaches of happy people waving their handkerchiefs at us. This mountain road is a narrow gauge one and was built about thirty years ago. At that time they would never attempt to pull more than one coach with a seating capacity of forty-eight people. Now with engines that are not any larger than the old ones they glide along with six coaches, and each coach has a seating capacity of fifty-six people. The engines have four driving wheels that are only thirty-six inches high. This is an excellent illustration of the improvement in locomotive engines. The apple crop in Colorado suffered very badly from the frost, except at Ft. Collins where they have a very heavy crop of all kinds of fruit.

The people there claim that the Ft. Collins fruit was saved in a very peculiar way. While the frost was coming down from a clear cold sky in other parts there was a dark heavy cloud at Ft. Collins which poured a soft snow until sunrise. The lamb has always been considered an emblem of peace and innocence, and the Ft. Collins farmers all feed lambs as a special business and must have taken on the lamb's meek and innocent ways, and this is possibly the reason that the friendly clouds were sent to protect them.

J. M. MILLER.

Wanted a Judge.

You hear oft of judges who are out of employ, as your way thro' this wide world you trudge, but newest thing out in that combine is this, "A job wanting a judge."

Vital Importance.

The following telegram received by G. A. Richardson Saturday evening:—

Chicago, Ill., Sept. 5, 1903.
G. A. Richardson,
Roswell, N. M.

Vital importance that whole southwest be strongly represented at Ogden Irrigation Congress and work together and send the largest delegation possible from your city.

GEO. H. NEWELL,
Chairman National Irrigation Congress.

1-2 Prices.

Mothers Now is the time to get your boys a school suit for half price. Come before the sizes run out of the boys' clothing business. All goods marked in plain figures.

E. H. Williams & Co.
THE MENS FURNISHERS

We Strive to Excel

In all points and are the acknowledged leaders in our line.
